**You know HTML and CSS
and want to build
your next web site.**

**Making it look good on all
types of screens is hard.**

Many sites use a similar layout though, that we can leverage!

START

**You can use a framework
that *bootstraps* your
development.**

**Bootstrap is a very popular
and open-source CSS
framework.**

Course Introduction

Learn Bootstrap in a practical way

Understand the grid system

Apply style using the Bootstrap framework

Extend by adding components
