# jQuery Ready Function

---

DOM

# Document Object Model

## jQuery Ready Function

```
$(function() {  
    // jQuery code here  
});
```

## jQuery Ready Function

```
$(function() {  
    // jQuery code here  
});
```

## jQuery Ready Function

```
$(function() {  
    // jQuery code here  
});
```

## jQuery Ready Function

```
$(() => {
```

```
// jQuery code here
```

```
});
```

## jQuery Ready Function

```
$(() => {
```

```
// jquery code here
```

```
});
```

## jQuery Ready Function

```
$(() => {
```

```
// jQuery code here
```

```
});
```

# Selecting by ID, Class Name, and Attributes

---

Select element  
by ID

```
$(() => {
```

```
  let pies = $('#pies');
```

```
});
```
